Education

Drexel University

Bachelor of Science in Computer Security Technology; Minor in Management Systems

Expected Graduation: June 2029

Philadelphia, PA

Relevant Coursework

- Data Structures
- Internet Technology
- Systems Analysis
- Network Architecture
- Technology Management
- Management Systems
- Systems Programming
- Server Analysis

Technical Skills

Languages: Python (Scripting & Data Processing), SQL (PostgreSQL/MySQL), Java, Swift

Data Engineering : ETL Pipeline Development, Data Modeling (Normalization, Star Schema), Query Optimization

Cloud & Tools: AWS (S3, EC2, Lambda, IAM), Google Cloud Platform, GitHub, Docker/Jenkins (CI/CD), Smartsheet

Analytics: Power BI, Tableau (Exposure), OpenCV, TensorFlow

Work Experience

PromptlyAI

August 2025 – November 2025

Data Engineer Intern

Philadelphia, PA

- Designed and automated end-to-end **ETL pipelines** using **Python** leveraging **AWS Lambda** to process **5k+** simulated user interactions daily, ensuring **99.9% data ingestion reliability**.
- Migrated **10k+** daily records from NoSQL **DynamoDB** to **Redshift** using **Lambda**, EventBridge, S3 replication, and SQS.
- Fortified data integrity with **Pydantic** validation, **eliminating data leakage risks** across all API endpoints.

Shifa Properties

September 2024 – Present

Maintenance & Property Operations Manager

Philadelphia, PA

- Manage a portfolio of residential units, maintaining a **98% occupancy rate** through proactive tenant relations and professional lease administration.
- Resolve **50+ critical infrastructure tickets** annually, including HVAC, electrical, and plumbing failures, **reducing** external contractor costs **by 30%**.
- Engineer and optimize local network configurations, **ensuring 99.9%** high-speed internet uptime for all tenants and common area facilities.
- Standardize **15+ administrative workflows** and legal documents, ensuring **100% compliance** with Philadelphia housing regulations and property standards.

Projects

AI Road Condition Mapping System

July 2025 - September 2025

- Developed an automated AI system to detect road defects and improve transit safety for Philadelphia drivers in **10+** high-traffic corridors.
- Applied **OpenCV** and **TensorFlow** to **1,000+ S3-stored images**, automating the identification of potholes and hazardous infrastructure.
- Architected a **MySQL database** to manage model outputs, achieving **85% detection accuracy** through rigorous hyperparameter tuning.
- Engineered a **Power BI dashboard** for geographic visualization, enabling **real-time** mapping of road defects and maintenance priorities.

Youth of Truth | Founder & President

February 2025 - Present

- Founded and scaled a youth organization reaching **10k+ followers** and **2M+ views** through community-focused outreach.
- Curate **30+ career and technical resources**, distributing professional opportunities to a growing network of students.
- Direct end-to-end event operations, managing guest speaker coordination and logistics for recurring community workshops.
- Facilitate networking initiatives to connect members with industry professionals and peer-led educational content.

Extracurriculars

Member of NSBE

September 2024 – Present

Member of Drexel CyberDragons

September 2024 – Present

Mentor for Youth in STEM at T.I.E.S

August 2022 – Present

Math Tutor for K–8 Students

June 2020 – Present
